ODUN

Designer Ezgi Koroğlu, who lives and works between Milan and Istanbul, loves the unique textures of olive wood, birch wood, and antique copper. This is why she launched a label called Odun (wood) and designed an entire collection of handmade copper cups and olive-wood mugs for people who like to “stay in the moment,” as she puts it. A beautifully handmade copper-and-silver cup with a carved birchwood handle, the sturdy

vessel beckons us to pack our bags and head out to explore the world, an Odun cup dangling from our belt.
